1. Gallo® Burgundy Wine	1.5	2.0	2.0	2.5
2. Welch's® Bottle Grape Juice	2.5	3.0	2.5	3.0
3. French's® Plain Mustard	1.5	3.0	1.0	1.0
4. Bottle Ketchup	4.0	5.0	4.0	4.0
5. Mayonnaise	4.5	5.0	4.0	4.0
6. Salad Oil	5.0	5.0	5.0	5.0

Note : Ratings based on AATCC 130 Stain Release Replica
Grade 5 represents the best stain removal and Grade 1 the poorest stain removal.

How it works

Far-Infrared ceramics split water clusters into smaller clusters. Water with smaller clusters can penetrate in between fabric fibers more effectively that dirt can be easily removed.

Alkaline ceramics, like soaps, raise the pH of water, just enough to remove stains without damaging the fabric. Dirt is removed more easily at high pH.

Antibacterial ceramics form hydroxyl radicals, which kill bacteria and deter bacterial propagation. They can even decompose bacterial remains and remove bad smelling gases.

Magnet balls promote reducing the size of water clusters and raising alkalinity of the water. Magnetic field created by magnetic balls weakens the bond between elements.

Benefits

Excellent washing power

Gentle yet powerful, 1THE WASHINGBALL PLUS is the concentration of cutting edge science. The ceramic balls in it directly interact with water molecules and create the optimal conditions for laundry.

Gentle on skin, laundry and earth

Detergent residue shortens fabric life and causes fabric discoloration and skin irritations. 1THE WASHINGBALL PLUS leaves no chemicals behind. It will make it easy and convenient for you to be chemical free and contribute to save the environment.

Sanitary and germ-free

Antibacterial ceramic balls keep the washing ball and your laundry sterile and germ-free. 1THE WASHINGBALL PLUS is tested and proven to kill both gram positive and negative bacteria.

Conservation of natural resources

By reducing rinsing time, 1THE WASHINGBALL PLUS can save a lot of water and power. Not only it can help save on your utility bills and detergent cost, but water and natural resources to generate electric power can be saved.

Use authentic 1THE WASHINGBALL PLUS

Don't be fooled by cheap replicas. 1THE WASHINGBALL PLUS is made in Korea, distributed by IonFarms Co., Ltd. and has a Kotra Seal of Excellence on the box.

Outstanding durability: Unlike low quality washballs, 1THE WASHINGBALL PLUS is sturdy that it never breaks open in the washer and flexible that never damages your washer.

Heat resistance: 1THE WASHINGBALL PLUS does NOT melt in a washer even at a high temperature. You will never see it deformed by heat.

Quality ceramic balls: Don't worry about ceramic balls getting crushed in the washer. We use quality ceramic balls that are firm and effective.
